

# **A3 PIXMA HOME TS9565**

#### YOUR A3 CRAFT PRINTER

Wireless

Print with ease with PIXMA Cloud Print and other applications such as Apple AirPrint, Google Cloud Print that simply connect to mobile devices.

**Print With New** Media

Get creative and use your printer to print on a variety of new mediums such as nail stickers, 12" x 12" card stock (for scrapbooking and card making), 5" x 15" and 3.5" x 3.5" square sizes, restickable and magnetic paper.

**A3** 

Perfect for the home or office, this compact multi function printer with automatic document feeder (ADF) can print up to A3 size without being bulky or appearing oversized.

Redefined inks

Produce crisp text with pigment black, beautiful photos with 5-color independent inks.

**Borderless Prints** 

Print your documents and photos on a range of different paper sizes, from business card to Instagram-style images, on square sizes! You can even print borderless 4"x6" photos in approx. 17 seconds.

**Dual Paper Feeder** & auto two-sided printing

Get flexible with the way your printer receives paper – either through rear paper feeding or via front paper cassette. The paper output tray is automatically expandable, as well as two sided printing.

**Booklet layout** printing

Print booklets with ease using A3 and A4 paper. Perfect for holiday itineraries, recipe books, colouring books and your business needs.

**Printable Nail** Stickers

Change up your look daily and print any picture or pattern on to stick on nail stickers.

**SD Card Reader** 

Print photos off your laptop or camera, with the printer's direct SD card slot - making it easier than ever before to showcase your prints.

**Built-In Pattern Paper** 

45 built-in patterned papers makes creative printing and scrapbooking easy. Print directly from your printer in minutes without the use of your PC.

#### What inks can I use with my printer?

- \*2: Ink droplets can be placed with a pitch of 1/4800 inch at minimum.
- 3: Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/IJS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type

- raper rus disasy in an advantage of the control of paper used etc.

  5: TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.

  6: Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.

  8: The fastest speed in Hi-Speed USB on Windows PC. Transfer time to computer is not included.

  10: Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183. Copy speeds (ADF) are ESAT of copy in sequence, ISO/IEC24735. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warming up time.

  11: Can be used by attaching the adapter that is separately sold in the market.
- 12: Resolution may be changed between Direct print and printing from PC.
  14: It is NOT supported via Network.
  15: The amount of image extension beyond the paper cannot be adjusted.

- \*16: Plain paper is printed bordered automatically, regardless of the camera settings
- 17: Not supported for disk label print.

  18: Image data taken by DCF (Ver.1.0/2.0)-compliant digital cameras, camcorders or camera phones and recorded in JPEG (Exif-compliant) format. \*19: Function depends on the connected digital cameras, camcorders or camera phones
- 20: Only 'high' mode available as for the printer without LCD.
  \*23: "Non-support for 2/4/9/16-up in sticker printing as well as date/file number printing in disc label printing. As for '4-up' print layout, either file number or date can be printed at one time." \*24: The performance of the printer may be reduced under certain temperature and humidity conditions.
- "25: For the temperature and humidity conditions of papers such as photo paper, refer to the paper's packaging or the supplied instructions.

  "26: When printing ISO/JIS-SCID N2 on 4"x6" Photo Paper Plus Glossy II using default settings.

  "27: Acoustic Noise is measured based on ISO7779 standard with default setting.

- \*28: Copy: When copying ISO/JIS-SCID N2 (printed by inkjet printer) on A4 size plain paper using default settings. Specifications are subject to change without notice.

  \*29: 111 in US, CND, LTN, BRA, TW and HK.

  \*31: Black & white document fax transmission speed is based on default setting using ITU-T No.1chart. Color document fax transmission speed on default setting using Canon Color Fax Test Sheet. Actual transmission

- speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.

  "32: Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.

  "33: Not supported for AirPrint.

  "34: Typical Electricity Consumption (TEC) value: TEC value was calculated assuming the unit will be constantly switched among operational mode, sleep mode, and power-off mode for 5 days, and that it will be either in sleep or power-off mode for the remaining 2 days within the same week. The TEC value of this product is calculated by Canon on their own accord using TEC measurement procedure regulated in International ENERGY STAR Program '35: Not supported for 'Printable Nail Stickers'.
